

## 9 ROMAN LEGION FACE MASK

Soldiers in the Roman armies wore many pieces of equipment for protection, and one of the most important was the face mask. To make one of your own, do the following:

1. Get the template. Fold a piece of white construction paper in half lengthwise. **PLACE THE NOSEPIECE ON THE FOLD.**
2. Trace the template. Cut on the trace with scissors and open the paper on the fold. The complete mask with the nose piece sticking up will be in the center of the construction paper.
3. Fold down the nose piece and decorate the mask.
4. Punch holes on the tabs and attach string to go behind your ears. Wear the mask and terrorize the enemies of Rome!

Put NOSEPIECE on the fold then trace and cut.
